THE SIOUX GARDENS

T. E. Barber & Sons

Grand Forks, N. Dak., U. S. A.

Again we wish to thank our many friends and customers for their consideration during the past and this season. We are presenting a list a little out of the ordinary in that we are sacrificing our space ordinarily used for sales talk and instructions in growing and treatment of bulbs in order to give you some of the reproductions of the new and latest varieties. I do not know whether you care for this kind of advertising or not. If so would be pleased to have you say so in your card you return to us.

Many new varieties are coming up and I wish to tell you of a few I have observed while assisting with the judging at the Winnipeg Show. The championship bloom was a seedling you might call a blush pink or white with a very delicate pink shading toward edges of petal. Tall, massive spike with ten beautiful ruffled florets open on twenty-four bud spike outclassed any spike of Rosemarie Pfitzer I ever saw. This seedling won first in seedling class and champion bloom over all, was originated by Mr. F. C. Cove and is a cross of Mrs. Anna Pfitzer X Picardy. This one looks very promising as I understand the bulblet increase is above any variety I have record of.

Reserve champion bloom was a creamy white seedling, winning in the white class and originated by J. Twomey Jr.; being a cross of Mrs. Anna Pfitzer X Queen Mary. The spike show was a little on the narrow side but very long and showed ten open with 22 buds and blooms showing color on a 28 bud spike.

Highland Chief has been observed for several years and it looks very good to place well up toward top in the exhibition Lavenders. It is the largest and tallest lavender we have seen and the color is the ideal violet-lavender. It is in a class all by itself in this color.

King's Ransom has also been observed over a period of time and we can thoroughly recommend it for an early blooming commercial and exhibition basket. The color alone will make it most desirable.

Peggy Lou is very highly recommended. Although we never saw it in bloom we will still advise a start with this variety. The pleasing pink color and fine growing habits along with the extremely long flower head should be of interest to many as an exhibition variety and also for hybridizing purposes.

Jasper, a scarlet, and Corinne, a light pink and cream, both originated by E. H. Bennett of Summerland, B. C., won places at this show and can be highly recommended. Corinne won C. G. S. silver medal at the show.

We are asking your co-operation in revising our mailing list and are enclosing a return post card for you to sign, provided you are still interested in glads and are buying a few each year. Regardless of whether you already have orders in or requests for lists, will you mail back these cards as we will make up our lists from the returned cards for next year. Please sign them and return them, thereby saving us the expense of mailing our lists to non-interested members. Mail the card out before it is lost; no postage is needed.

All stock is as true as is humanly possible to have it and we will correct any mistakes made in shipping. We have no gladiolus thrip here and only inspected stock is sent out.

Our prices are placed at such a level that you will be assured of full value for money sent as compared to other growers' prices, and with our generous count and extras as has been customary in the past, you will be satisfied I can assure you. Unless ordered earlier, stock will be sent out as soon after March 15th as is possible.

New and Recent Introductions of Merit

FOREIGN AND DOMESTIC

1 9 3 8

AMBERGLOW (Palmer) A soft, clear, amber yellow; outstanding and decorative. Fine habits and earliness make it ideal for commercial uses. **L-\$1.50, M-\$1.00, S-50c, Bbts.-100 for \$3.00.**

AWATEA (Burns) Peach blossom, flaked darker. Pink toward edge of petal, ivory yellow blotch with small purple feather. Opens 8 to 10 wide open flowers on straight stem. **L-\$3.00, M-\$2.00, S-\$1.00, Bbts.-30c, 12 for \$1.50.**

BEACON (Palmer) Exhibition variety of clear, brilliant, deep rose with pronounced creamy blotch. Florets waved and ruffled. 8 open up nicely. **L-60c, M-40c, S-20c, Bbts.-100 for \$2.50.**

BLACK OPAL (Errey) One of the darkest reds of recent introduction. Very deep maroon and slightly marbled. Opens up 10 on tall straight spike of 22 buds. **M-\$3.00, S-\$2.00, Bbts.-1 for 50c.**

BLUE WONDER (Tunia) Champion seedling in Australia. Medium light violet. Opens up 12 to 14 with 5 inch florets on 23 bud head. May need support in hot weather. **L-\$3.25, S-\$2.00, Bbts.-1 for 40c.**

CENTENARY TRIUMPH (Errey) A very fine variety of a salmon shade. Throat deeper, overlaid with lavender grey. Large florets, well placed on spike, with up to 12 open. **L-\$1.00, M-60c, S-35c, Bbts.-2 for 25c.**

CHAMOIS (Mair) Color is just as it is named. Well up to Mair's standard. Many open and makes a good exhibition in buff class. **L-75c, M-50c, Bbts.-3 for 25c.**

CORINNE (Bennett) Large flowered exhibition type, color is light pink with creamy throat; a very beautiful shaped rounded floret, with rolled back petals, opens 6-8 blooms on tall slender stem, early mid-season. Winner C. G. S. Silver Medal, Winnipeg, 1937. **L-\$2.50, M-\$2.00, S-\$1.00, Bbts.-10 for \$2.50.**

EUIDES (Errey) Ground color is ivory white with cream center and flushed with lilac pink toward edges of petal. Very consistent in producing good spike. Winner of many awards. Opens 8 to 10 round florets and spike is ideal formation. **M-40c, S-30c, Bbts.-100 for \$4.00.**

FRALANCE (Burns) Best described as an improved Coryphee. La France pink with cream blotch. **L-\$3.00, M-\$2.00, S-\$1.00, Bbts. 1 for 30c.**

GLACIER (E. H. Bennett) A new British Columbia origination. Pure glistening white, opening six florets seven inches in diameter. Data is lacking detail but will have it by time you receive list. **L-\$5.00, M-\$4.00, S-\$3.00, Bbts.-10 for \$5.00.**

GOLDEN GODDESS (Salbach) First patented gladiolus in the U. S. Clear, deep, yellow self. Spike is long and compact with 12 open blooms on 22 bud spike. All stock sold under special permit from Carl Salbach which restricts all purchases through us for use only as private stock and not for re-sale or as gift, without the consent of Mr. Salbach. **L-35c, 3 for \$1.00, 10 for \$3.00, 25 for \$6.50.**

HAKAWAI (Miller) Salmon pink, flaked deeper. Crimson blotch on white throat. Well formed spike that opens up to 16 blooms at once. Champion bloom Christchurch 1934-1936. **L-\$2.00, M-\$1.50, S-\$1.00, Bbts.-3 for 25c.**

HEILIGTUM (Pfitzer) Alabaster white with greenish throat. Florets of fine form and large size. 7 to 9 open on tall, strong spike of 20 buds. **L-\$1.25, M-75c, S-50c, Bbts.-15c.**

HEREWAKA (Miller) Orange-red with dark blotch. Opens 8 blooms. First prize seedling in New Zealand 1936. **L-75c, M-50c, S-30c, Bbts.-3 for 20c.**

HIGHLAND CHIEF (Mair) One of Mair's choicest in this color. A deep lilac-lavender with deeper markings in throat. Florets are nicely fluted and waved. Will open up 10 well rounded blooms well over six inches in diameter. The spike and stem are of wiry nature and with extremely large flower head; may need support in hot weather. Very fine exhibition variety and should top the varieties in the lavender class for exhibition. Blooms a little after mid-season and reproduction is excellent from bulblets and planting size. You will not go wrong with this one if you take care of it. This variety was sold from Australia under the name of Champion before Mair and Sons had introduced it for sale, enabling a few American growers to get well acclimated stock started here at time of introduction this year by Geo. Mair and Sons in Scotland. All stock here is being sold with their full consent under the name of Highland Chief. **L-\$5.00, M-\$3.00, S-\$2.00, Bbts.-50c.**

JASPER (E. H. Bennett) Another variety from British Columbia of the exhibition type. Opens 8 to 10 well placed blooms on showy straight spike carrying 20 to 24 buds. Florets are heavily ruffled or frilled and opens up to full size to the top. Color is shade of red, between Dr. F. E. Bennett and Pf. Triumph with Triumph's markings. Late midseason and good propagator. First in seedling class, Vancouver Jubilee Exhibition. **L-\$5.00, M-\$3.00, S-\$2.00, Bbts.-10 for \$2.50.**

JOSEPH HAYDEN (Pfitzer) Exhibition, light Heliotrope Violet with pronounced dark violet blotch. Florets are large, wide open, of heavy substance and well placed on slender but straight stem. **L-\$7.00, Bbts.-1 for 70c.**

KATILEEN LEE (Whiteley) Tall growing, deep crimson with deeper throat. Well rounded florets on straight spike. Color is an improvement over Southern Cross. **L-\$1.50.**

KILLARNEY (E. H. Bennett) A large exhibition type, opens 8 to 10 large blooms on showy straight stem carrying 20 to 24 buds. Facing and placement good. Color is a clear pure medium pink with no markings; does not fleck or streak. Mid-season. **L-15c, Bbts.-10 for 15c, 100 for \$1.50.**

KING'S RANSOM (Almey and McCaw) Apricot Glow X Dorothy Simpson. 1938 release from Winnipeg. This new commercial comes very well recommended, and knowing the originator so well, am sure he is releasing nothing that is not of the highest class. The color is peach red blending to golden apricot salmon in the throat. Light peppering of violet deep in the throat. Exceptionally rich color. Bud color very fine. Nicely ruffled. Opens 6 to 8, 4½ inch blooms. 18 florets. Placement good and height is 48 to 56 inches. Very early—67 to 70 days. Stem excellent and plant is very robust grower. One year's forcing in greenhouse proven very satisfactory. Excellent propagator from all sizes. Its attractive color and earliness promises to make this a first class commercial. **L-\$1.00, M-60c, S-40c, Bbts.-12 for \$1.00.**

KOMIRI (Burns) New Zealand A. M. and F. C. C. awards and scoring in points, 92, the highest score received by any variety in New Zealand tests. Color is a frosted lavender, flaked pink towards edges of petal, with greenish yellow blotch. Opens 10 to 12 perfect blooms on tall straight stem. A perfect exhibition type. **L-\$3.00, M-\$2.00, S-\$1.00, Bbts.-30c, 12 for \$1.50.**

LESCHI (Kaylor) This dark red is not known as well as it should be and recently its wins have been outstanding. Outside of being a little short it has all the other qualifications. Color is a dark maroon-purple with a black throat and a heavy velvety texture. This variety can take it in all weather, which is exceptional in the dark ones. Very fine propagator. **L-25c, M-15c, S-10c, Bbts.-100 for \$1.50.**

MAC (Tunia) Huge orange scarlet with small violet blotch on lower petal. Florets 6 to 7 inches in diameter and 5 to 6 open. First bloom at times misplaced. Fine commercial and exhibition variety. **M-35c, S-20c, Bbts.-100 for \$4.00.**

MAKENU (Burns) Award of merit, New Zealand Gladiolus Society, 1934. Large wide open ruffled florets of rich orange shade with scarlet red blotch. 8 to 10 well arranged perfectly formed large florets open at once. Color quite similar Pf. Triumph but stands sunshine better. **L-50c, M-30c, S-20c, Bbts.-4 for 20c, 100 for \$3.00.**

MANU (Burns) A new decorative variety of new coloring, and most outstanding. The round florets are six inches across and of fine form and excellent substance. Spike is always strong and upright, which opens up to six blooms. Color is rose doree, with small magenta purple feather and white outer line. F.C.C. as a decorative, at the New Zealand Gladiolus Society in 1935. **L-\$3.00, M-\$2.00, S-\$1.00, Bbts.-1 for 30c, 12 for \$1.50.**

MARGRET BEATON (Twomey) Another fine variety from Winnipeg. The color is ivory white and small intensely colored orange scarlet blotch that gives a wonderful effect in coloring. Opens 6 or more large, rounded, perfectly placed blooms at once. Substance is very good and is a very good propagator. **L-\$4.00, S-\$2.00, Bbts.-1 for 50c.**

MATTERHORN (Pfitzer) Creamy throated pure white with greenish colored buds. The large well formed florets are of heavy substance, opening 6 to 8 at once carried on a very strong stem. **L-\$1.25, M-75c, S-50c, Bbts.-1 for 15c.**

MAUNGA (Burns) A magnificent white variety. Blooms have been measured up to 8 inches across with 6 to 8 open on a spike. Champion bloom, Normandy, 1931, first time exhibited. 1st prize, White Class, Woolston, 1934. Champion bloom, Miramar, 1934. Award of Merit, New Zealand Gladiolus Society, 1934. F.C.C., Ballarat, 1935. **L-40c, M-30c, S-20c, Bbts.-5 for 20c.**

MEDALIST (Mair) Bright cerise darkened at edges and with white blotch in throat. Won as seedling in British Gladiolus Society. **L-\$1.00, M-60c, S-35c, Bbts.-2 for 20 c.**

MILFORD (Rides) Soft delicate blue-violet, slightly darker at edge but without throat marking. Tall and straight, opens 9 blooms. Champion Seedling, New Zealand Gladiolus Society, 1936; F.C.C., Ballarat, 1936, besides many wins in the U. S. One of the best exhibition blues grown. **L-25c, M-15c, S-10c, Bbts.-75 for \$1.00.**

MILLIE PARKS (McFetrich) Very consistent performer. The color is shrimp pink flaked rose doree with primrose throat. 8 well placed blooms open on tall straight spike. Very pleasing in every way. **M-\$1.00, S-60c, Bbts.-5 for \$1.00.**

MOANA (Julyan) La France pink, throat slightly penciled carmine. Long spike with 6 to 8 large blooms open at once. **L-\$1.00, M-60c, S-40c, Bbts.-3 for 25c.**

MISS NEW ZEALAND (Julyan) This one is still supreme in the mammoth class. The race to outdo this fine variety is showing but few contenders. The demand is still very good for this variety and with the numerous wins all over the country the demand should be good for some time to come. Color is deep pink suffused rose with some ground color of dark apricot salmon, throat coloring as of ripe peach. Blooms up to 8 inches across with ten open and size blooms hold up very well as they bloom out. Substance is excellent and is a powerful grower, throwing a tall straight spike. This variety has won so many championships and awards that a special edition should be printed for it. **L-40c, M-30c, S-20c, Bbts.-100 for \$3.00.**

MRS. C. P. WORLEY (Whiteley) This is about the best from Miss Whiteley to date. Is a tall and very robust grower. Color is salmon red with cream throat. 8 large blooms open on extremely long flower head of 22 buds. Late mid-season. **L-\$1.00, M-60c, S-35c, Bbts.-2 for 20c.**

MRS. E. J. TOON (Toon) A new white from New Zealand that looks very good. 8 large blooms open on tall straight spike. **S-\$2.00, Bbts.-1 for 40c.**

MRS. G. WADE (Whiteley) An early yellow self that opens 10 nicely ruffled blooms on tall, straight spike. **L-25c, M-20c, S-15c, Bbts.-100 for \$1.00.**

NEW ERA (Ellis) Beautifully ruffled, rich pink. Cream throat and mid-ribs. 8 open on 18 bud spike. Color is very pleasing. **L-\$3.50, M-\$2.50, S-\$1.50, Bbts.-1 for 25c.**

OEGANDA (Pfitzer) Black-red, almost a black white silky gloss. Florets 3 to 4 inches in diameter. Opens 4 to 6 on a 13 to 14 bud spike. Height, 3 to 3½ feet. Tall, strong, slender stem. **L-\$1.50, Bbts.-1 for 20c.**

PEGGY LOU (Wilson) This seedling has the same breeding as Picardy and shows many of the same fine traits. It is a wonderful propagator. Has a long flower head and is a tall and rugged flower. The form of the florets is similar to Picardy, except that Peggy Lou has a little more of a rounded effect. In color it is a pure pink self with slight peppering of rose in the throat and a color that stands all kinds of weather. The flower head will average around 36 inches. Opens 8 to 10 six-inch blooms on a 19 bud, straight, tall stem. The reproduction is as good as Picardy and this variety will stand up under the hot sun where others will flop. Wins for 1937 as a seedling include Penn. Champ. Seedling bloom of class of 27 seedlings of various types, Mahoning Grand Champion seedling, and Champion of show. With each large or medium bulb purchased at \$3.00, two large No. 6 bulbs will be included. This will insure a start in a new variety that may become as popular as Picardy. No small bulbs or bulblets are being listed.

PINK SELECTION (XX) Delicate pink with deeper blotch. Flower head and growing habits as Our Selection, from which it is a sport. **L-\$1.00, M-75c, Bbts.-1 for 10c.**

PITITI (Hill) Champion seedling, New Zealand. Salmon apricot, flecked deeper with throat powdered with henna. Very tall and strong grower with 8 to 10 large blooms open that will need attention as they bloom out. **L-25c, M-15c, S-10c, Bbts.-75 for \$1.00.**

RANGATIRA (Julyan) This outstanding variety opens up 15 florets and is a tall straight grower. Color is a deep vermillion with throat of greyish hue, brightened with a blotch of plum shade. Florets nicely frilled and placement is excellent. Said to be an improved Red Lory. Award of Merit in 1936. **S-\$2.00, Bbts.-1 for 60c.**

ROMANA (E. H. Bennett) Color light purple with darker velvety purple blotch on lower petal. Opens 6 to 8 large blooms on strong, straight stem, carrying 20 to 22 buds. The placement and facing are perfect. **L-\$1.50, M-\$1.50, S-\$1.00, 2 Bbts.-10 for \$2.50.**

RAWHITI (Julyan) A very pleasing shade of salmon pink, edges of petals slightly penciled mauve, which greatly adds to the beauty of the floret. Carmine lines in the throat. 10 to 12 large well-placed florets open at once on a strong straight spike. A.M., New Zealand test gardens, 1935. Champion seedling, New Zealand Gladiolus Society, Christchurch, 1935. **L-\$2.00, M-\$1.50, S-\$1.00, Bbts.-1 for 20c.**

RETA SCHELL (Kaylor) Tall growing pink with shades of orange and cream in the throat. This one stretches out well. Good substance and form and opens up to 12. **L-40c, M-35c, S-25c, Bbts.-7 for 25c.**

REWI FALLU (Fallu) Deep blood red that comes into bloom well in advance of most of the good reds. Tall massive growth. A spike of a well bloomed Rewi Fallu is well worth seeing. The texture is heavy, many blooms open, and color shows well up to the tip. All blooms are of good size. Under ordinary conditions will open about 8, but more have been reported. Get a start in this one and you will never regret the money invested. Bulblets are prolific and germinate close to 100%. The growth from the bulblets is excellent. Here in the north we get up to No. 2 bulbs from the bulblet stock. **L-\$3.00, M-\$2.00, S-\$1.00, Bbts.-1 for 25c, 5 for \$1.00, 100 for \$12.00.**

ROSES OF PICARDY (Bennett) Large flowering decorative or exhibition type. Opens 6 to 8 or more long, wide open slightly ruffled blooms of beautiful type. Color is a rich apricot with golden blotch in lower petal. A Picardy seedling, resembling Picardy in many ways. Tall strong grower and a very good propagator. Mid-season. **L-15c, 12 for \$1.50, Bbts.-10 for 15c, 100 for \$1.25.**

RUDOLPH SERKIN (Pfitzer) Another blue from Pfitzer. Because of its dark pansy blue, it will hold its color in adverse weather. Rounded petals and well expanded florets. Pfitzer's own improvement on Pelegrina. **L-40c, M-30c, S-20c, Bbts.-100 for \$4.00.**

R. Y. MAIR (Mair) A very striking red of solid color with darker feather in throat. Opens well up to Mair's standards. Has been in much demand, especially in Canada. **L-40c, M-25c, S-20c, Bbts.-5 for 15c.**

ROSOLIND (Julyan) Rose shade with cream throat penciled deeper rose. Especially strong grower. **L-\$1.00.**

SCARLET CANNA (Burns) F.C.C., 1936. True self scarlet. Greenish yellow stripe on lower petal. Closely resembles a scarlet Canna. **L-\$4.00, M-\$3.00, S-\$2.00, Bbts.-1 for 40c.**

SHIRLEY TEMPLE (Pruitt) Light cream, approaching white. Rich cream throat marking. Florets creased and ruffled, are of heavy texture, averaging larger than Picardy. A very tall, robust grower. **L-\$3.75, M-\$2.00, S-\$1.00, Bbts.-1 for 50c.**

SOUTHPORT (Mair) We are very partial to this beautiful rose pink of Mair's. The color is very pleasing, flower head is ideal and opens up 10 to 12 medium sized florets, perfectly, at once, with most of the color showing on up the spike. Stem is medium in length and this is its only fault. If you like self colors, you will like this one. **L-\$1.00, M-75c, S-50c, Bbts.-2 for 20c.**

STAR OF BETHLEHEM (Pfitzer) Pure white with creamy throat. This variety has been on its climb in the various symposiums and is well at the top in Canada and among the first fifteen in America. Right now Star of Bethlehem ranks top in its class among varieties out the past few years. Star of Bethlehem has grown to sufficient quantity so it can be purchased quite extensively as far as price is concerned. You will have no regrets in adding this variety to your list. **L-20c, M-2 for 20c, S-4 for 20c, Bbts.-100 for \$1.20.**

STAPLEFORD (Whiteley) Exhibition purple with massive flower head and wonderful growth. Bright purple with pronounced white blotch. 10 to 12 rounded florets of good size open. More on the slow side as to propagation. **L-\$1.00, M-75c, S-50c, Bbts.-2 for 20c.**

SUNNYSIDE (Phillip) Many times Champion bloom in Australia. Has not been in demand here as it should, due to slow adaptation to change in climate. This has proven to be one of our best in hybridizing, and have several outstanding new ones on the way from Sunnyside. Color is a pure white center shading to a bright serene pink at edge of petal. Tall straight stem with ideal flower head with 10 to 12 open at once. **L-40c, M-25c, S-2 for 25c, Bbts.-5 for 15c.**

TAKINA (Burns) This mammoth variety opens up the largest blooms of any we have seen. Often up to 8 inches in diameter and 6 to 8 showing at once. It will need care in starting growth as foliage may become top heavy before spike forms. H. O. Evans reports blooms up to 8 inches with 7 open and standing close to six feet tall. We can furnish this stock in quantity and a basket of Takina is a sight one will always remember. **L-45c, M-35c, S-25c, Bbts.-6 for 25c.**

TANIWHA (Miller) This large salmon pink is a very consistent grower and does well under all conditions. The slight flecking of slate does not detract from the flower and the bright cherry blotch lightens up the bloom. This should make a very fine commercial, as growth and bloom are very consistent in tall strong spikes. Increase is very good. Bulbs ideal for commercial purpose. **L-50c, M-30c, S-20c, Bbts.-100 for \$4.00.**

TOA (Miller) Quite similar to Pf. Triumph in color, but a little more on the salmon pink side. Large bloom and sturdy growth. Good commercial. **L-20c, M-1c, S-10c, Bbts.-100 for \$1.00.**

TUNIA'S TRIUMPH (Both) This is a very highly rated variety from Australia. The color is a light orange-scarlet self, and Duncan McLean of Winnipeg describes it as chestnut in color. Size of blooms reported are 7 to 8 inches with extra heavy texture. 7 to 9 open, and blooming period about same as Picardy. Spike is gun barrel type. The wide open florets are not cramped, nor do they have any gap. Increase is average. 30 to 50 bulblets from first year bulbs. This stock is scarce, and unless ordered early you may have to be contented with bulblets only. **L-\$8.00, M-\$6.00, S-\$4.00, Bbts.-1 for 90c.**

TUNIA'S BLUE (E. Both) This new dark violet is likely the strongest growing of the so-called blues. The color is a shade lighter than Peleguna. Immense florets of 6 to 7 inches, and up to 7 open on 16 bud spike. The vigor and size of this variety should add much to the hybridizing in the blues. **L-\$4.00, S-2.00, Bbts.-40c.**

VAGABOND PRINCE (Palmer) Iridescent garnet brown, lighter in upper throat, and with a small blotch of glowing flame scarlet on lip petal. 8 to 10 or more well placed medium large blooms open at one time. A very attractive novelty and one that will attract lots of admiration. **L-50c, M-30c, S-20c, Bbts.-100 for \$3.00.**

WAIKAWA (Burns) F.C.C., 1935. Warm rich Eosine pink with light cherry blotch outlined cream. 8 to 10 large, nicely ruffled florets that are wide open on tall spike. **L-\$5.00, M-\$3.50, S-\$2.00, Bbts.-50c.**

WHERO (Burns) This is the most attractive and pleasing red we grow, being a glowing scarlet red with darker flecks at outer edge of petal. Substance is very fine, and with 8 to 10 large blooms open on straight spike it will meet all demands. Champion seedling, New Zealand. **L-35c, M-25c, S-15c, Bbts.-5 for 25c.**

WILD FIRE (Bennett) Large exhibition type with 6 to 8 large blooms on strong straight spike carrying 20-22 buds. Spacing and placement are always good. Color, a bright orange scarlet that does not burn. A very brilliant glad. Mid-season. **L-\$1.25, M-75c, S-50c, Bbts.-10 for 60c.**

GENERAL LIST

1 9 3 8

Prepaid on Orders \$1.00 up

In order to save space we are condensing the description on this list and all are priced at **per 12, except where noted.**

Bulblets will be furnished at 30c per packet in all varieties listed per 12. Varieties listed per each, bulblets are priced at 12 bulblets at price of one L. Bulb. Leave the bulblet count to us in these and you will be satisfied.

If you wish graded lots in any of these varieties we can help you out provided stock is listed. State whether you wish bulblets included. All orders will be generously filled and in many cases trial bulbs will be sent, depending on size of order.

If less than three bulbs are wanted in varieties listed per 12, divide by 10 for price of single bulb. Please do not send stamps in payment for stock. Retail orders not accepted for less than \$1.00. No single item less than 15c accepted.
